

Abdul Rahman Abu Haniffa
Director Government Policy Programs
APAC Corporate Affairs Group
Intel

Abdul Rahman is presently the Director of Government Policy Programs for Intel. His area of work covers public policies and programs particularly in the areas of education, communications and trade in the APAC region. In this role, Abdul Rahman works closely with regional governments, multi-lateral organizations and trade organizations.

Prior to Intel, he was at Microsoft where his work involved designing and implementing strategic programs with the government and education sectors with the goals of advancing local economic development, digital inclusion and improving learning outcomes.

Abdul Rahman also worked as a management consultant with Accenture, focusing on strategy and business architecture development for client organizations. In his seven years with Accenture, he had undertaken major assignments in numerous industries including manufacturing, chemicals, transportation, high technology, communications and the public sector in functional areas of strategic visioning, business case development, business reengineering & transformation and strategic studies & knowledge development.

Prior to joining consulting, Abdul Rahman worked in corporate and business development, and before that, as a process Research & Development engineer for a defense electronics company in the United States.

He holds a bachelors degree in Chemical Engineering, and an MBA, both from the University of Toledo, Ohio.
